

# SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of:  
US OSHA HCS 2024 and Canada Hazardous Products Act (HPA) and  
Hazardous Products Regulation (HPR), as amended

Issuing Date 20-Aug-2025

Revision date 12-Aug-2025

Revision Number 1

## 1. Identification

### Product identifier

Product Name TransTint Coffee Brown

### Other means of identification

Product Code(s) B909

Synonyms None

### Recommended use of the chemical and restrictions on use

Recommended use Dye Additive

Restrictions on use Use only for intended applications

### Details of the supplier of the safety data sheet

#### Manufacturer Address

General Finishes  
2462 Coporate Circle  
East Troy, WI 53120  
Phone 1-800-783-6050

#### Distributor

Wood Essence  
2343 1st Ave North, unit B  
Saskatoon, SK S7K 2A2  
Phone 306-955-8775

Dover Finishing Products  
180 Ave Du Voyageur  
Pointe-Claire, QC H9R6A8  
Phone 514-697-3000

Lee Valley Tools  
1090 Morrison Drive  
Ottawa, ON K2H1C2  
Phone 613-596-0350

Canpro Edmonton Distribution Centre  
14045-156 Street  
CANPRO# 2620-999  
Edmonton AB T6V1J1  
Phone 780-428-6690

### Emergency telephone number

Emergency telephone 24 Hour Emergency Phone Number  
Chemtrec 1-800-424-9300  
+1 703 527 3887 (CHEMTREC International)

## 2. Hazard(s) identification

### Classification of the substance or mixture

|                         |            |
|-------------------------|------------|
| Flammable liquids       | Category 4 |
| Acute toxicity - Dermal | Category 4 |

|                                   |             |
|-----------------------------------|-------------|
| Serious eye damage/eye irritation | Category 2A |
| Skin sensitization                | Category 1  |

**Label elements****Warning****Hazard statements**

Combustible liquid.

Harmful in contact with skin.

Causes serious eye irritation.

May cause an allergic skin reaction.

**Precautionary Statements - Prevention**

Wear protective gloves, protective clothing, eye protection and face protection.

Wash face, hands and any exposed skin thoroughly after handling.

Avoid breathing dust, fume, gas, mist, vapors and spray.

Contaminated work clothing should not be allowed out of the workplace.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

**Precautionary Statements - Response**

Specific treatment (see supplemental first aid instructions on this label).

**Eyes**

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice and attention.

**Skin**

IF ON SKIN: Wash with plenty of water and soap.

Call a POISON CENTER or doctor if you feel unwell.

Take off contaminated clothing and wash it before reuse.

If skin irritation or rash occurs: Get medical advice and attention.

**Fire**

In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.

**Precautionary Statements - Storage**

Store in a well-ventilated place.

**Precautionary Statements - Disposal**

Dispose of contents and container in accordance with local, regional, national, and international regulations as applicable.

**Unknown acute toxicity**

24.9 % of the mixture consists of ingredient(s) of unknown acute dermal toxicity

**Hazards classified under paragraph (d)(1)(ii) of 1910.1200**

No information available.

**Other information**

May be harmful if swallowed.

**3. Composition/information on ingredients****Substance**

Not applicable.

**Mixture**

| Chemical name                     | CAS No.    | Weight-% | Hazardous Material Information Review Act registry number (HMIRA registry #) | Date HMIRA filed and date exemption granted (if applicable) |
|-----------------------------------|------------|----------|------------------------------------------------------------------------------|-------------------------------------------------------------|
| Ethylene glycol monopropyl ether  | 2807-30-9  | 25 - 50  | -                                                                            | -                                                           |
| Diethylene glycol monobutyl ether | 112-34-5   | 10 - 25  | -                                                                            | -                                                           |
| Acid Brown 282                    | 70236-60-1 | 10 - <25 | -                                                                            | -                                                           |
| Propylene glycol monomethyl ether | 107-98-2   | 5 - 10   | -                                                                            | -                                                           |
| Propylene glycol                  | 57-55-6    | 5 - 10   | -                                                                            | -                                                           |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

**4. First-aid measures****Description of first aid measures**

|                                           |                                                                                                                                                                                                                                                                                     |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>                     | Show this safety data sheet to the doctor in attendance.                                                                                                                                                                                                                            |
| <b>Inhalation</b>                         | Remove to fresh air.                                                                                                                                                                                                                                                                |
| <b>Eye contact</b>                        | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists. |
| <b>Skin contact</b>                       | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. May cause an allergic skin reaction. If symptoms persist, call a physician.                                                                                                   |
| <b>Ingestion</b>                          | Do NOT induce vomiting. Rinse mouth. Never give anything by mouth to an unconscious person. Call a physician.                                                                                                                                                                       |
| <b>Self-protection of the first aider</b> | Remove all sources of ignition. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Wear personal protective clothing (see section 8). Avoid contact with skin, eyes or clothing.      |

**Most important symptoms and effects, both acute and delayed**

|                            |                                                                                       |
|----------------------------|---------------------------------------------------------------------------------------|
| <b>Symptoms</b>            | Itching. Rashes. Hives. May cause redness and tearing of the eyes. Burning sensation. |
| <b>Effects of Exposure</b> | None known.                                                                           |

**Indication of any immediate medical attention and special treatment needed**

|                           |                                                                        |
|---------------------------|------------------------------------------------------------------------|
| <b>Note to physicians</b> | May cause sensitization in susceptible persons. Treat symptomatically. |
|---------------------------|------------------------------------------------------------------------|

**5. Fire-fighting measures**

|                                                   |                                                                                                                                                                                                           |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suitable Extinguishing Media</b>               | Dry chemical. Carbon dioxide (CO2). Water spray. Alcohol resistant foam.                                                                                                                                  |
| <b>Unsuitable extinguishing media</b>             | No information available.                                                                                                                                                                                 |
| <b>Specific hazards arising from the chemical</b> | Keep product and empty container away from heat and sources of ignition. In the event of fire, cool tanks with water spray. Product is or contains a sensitizer. May cause sensitization by skin contact. |
| <b>Explosion data</b>                             |                                                                                                                                                                                                           |

**Sensitivity to mechanical impact** None.

**Sensitivity to static discharge** Yes.

**Special protective equipment and precautions for fire-fighters** Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

**Personal precautions** Evacuate personnel to safe areas. Use personal protective equipment as required. See section 8 for more information. Take precautionary measures against static discharges. Do not touch or walk through spilled material. Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Keep people away from and upwind of spill/leak.

**Other information** Refer to protective measures listed in Sections 7 and 8.

### Methods and material for containment and cleaning up

**Methods for containment** Stop leak if you can do it without risk. Do not touch or walk through spilled material. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up** Take precautionary measures against static discharges. Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

## 7. Handling and storage

### Precautions for safe handling

**Advice on safe handling** Use personal protection equipment. Do not breathe vapor or mist. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharges. Use with local exhaust ventilation. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse.

**General hygiene considerations** Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Avoid contact with skin, eyes or clothing. Wear suitable gloves and eye/face protection.

### Conditions for safe storage, including any incompatibilities

**Storage Conditions** Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Keep in properly labeled containers. Store in accordance with the particular national regulations. Store in accordance with local regulations. Store locked up.

## 8. Exposure controls/personal protection

### Control Parameters

#### Exposure Limits

| Chemical name               | ACGIH TLV                      | OSHA PEL | NIOSH |
|-----------------------------|--------------------------------|----------|-------|

**Note**

See section 16 for terms and abbreviations.

**Other information on limit values**

Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962 (11th Cir., 1992).

**Appropriate engineering controls****Engineering controls**Showers  
Eyewash stations  
Ventilation systems.**Individual protection measures, such as personal protective equipment****Eye/face protection**

Wear safety glasses with side shields (or goggles). Tight sealing safety goggles.

|                                 |                                                                                                                                                                                                                  |
|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Hand protection</b>          | Wear suitable gloves.                                                                                                                                                                                            |
| <b>Skin and body protection</b> | Wear suitable protective clothing. Antistatic boots. Chemical resistant apron. Wear fire/flamm resistant/retardant clothing.                                                                                     |
| <b>Respiratory protection</b>   | No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required. Use appropriate respiratory protection. |

## 9. Physical and chemical properties

### Information on basic physical and chemical properties

#### Appearance

|                                       |             |
|---------------------------------------|-------------|
| <b>Physical state</b>                 | Liquid      |
| <b>Color</b>                          | Red / Brown |
| <b>Odor (includes odor threshold)</b> | Slight      |

| <u>Property</u>                                                  | <u>Values</u>    | <u>Remarks • Method</u> |
|------------------------------------------------------------------|------------------|-------------------------|
| <b>Melting point / freezing point</b>                            |                  | No data available       |
| <b>Boiling point (or initial boiling point or boiling range)</b> |                  | No data available       |
| <b>Flammability</b>                                              |                  | No data available       |
| <b>Flammability Limit in Air</b>                                 |                  |                         |
| Upper flammability or explosive limits                           |                  | No data available       |
| Lower flammability or explosive limits                           |                  | No data available       |
| <b>Flash point</b>                                               | 71 °C / 159.8 °F | CC (closed cup)         |
| <b>Autoignition temperature</b>                                  |                  | No data available       |
| <b>Decomposition temperature</b>                                 |                  | No data available       |
| SADT (°C)                                                        |                  | No data available       |
| <b>pH</b>                                                        | 7.5 - 9.0        |                         |
| pH (as aqueous solution)                                         |                  | No data available       |
| <b>Kinematic viscosity</b>                                       |                  | No data available       |
| <b>Dynamic viscosity</b>                                         | 50 - 500 cP      |                         |
| <b>Solubility</b>                                                |                  | No data available       |
| Water solubility                                                 | Soluble in water |                         |
| <b>Partition coefficient n-octanol/water (log value)</b>         |                  | No data available       |
| <b>Vapor pressure (includes evaporation rate)</b>                |                  | No data available       |
| Evaporation rate                                                 |                  | No data available       |
| <b>Density and/or relative density</b>                           | 9.26             |                         |
| Bulk density                                                     |                  | No data available       |
| Liquid Density                                                   |                  | No data available       |
| <b>Relative vapor density</b>                                    |                  | No data available       |
| <b>Particle characteristics</b>                                  |                  |                         |
| Particle Size                                                    |                  | No data available       |
| Particle Size Distribution                                       |                  | No data available       |

### Other information

|                         |                          |
|-------------------------|--------------------------|
| <b>Molecular weight</b> | No information available |
| <b>VOC content</b>      | 752 g/L                  |
| <b>Softening point</b>  | No information available |

### Information with regard to physical hazard classes

|                             |                          |
|-----------------------------|--------------------------|
| <b>Explosives</b>           |                          |
| Explosive properties        | No information available |
| <b>Oxidizing properties</b> | No information available |

## 10. Stability and reactivity

|                                           |                                           |
|-------------------------------------------|-------------------------------------------|
| <b>Reactivity</b>                         | None under normal use conditions.         |
| <b>Chemical stability</b>                 | Stable under normal conditions.           |
| <b>Possibility of hazardous reactions</b> | None under normal processing.             |
| <b>Conditions to avoid</b>                | Heat, flames and sparks.                  |
| <b>Incompatible materials</b>             | None known based on information supplied. |
| <b>Hazardous decomposition products</b>   | None known based on information supplied. |

## 11. Toxicological information

### Information on likely routes of exposure

#### Product Information

|                     |                                                                                                                                                                                                                                                                                                                                                                                         |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>   | May cause irritation of respiratory tract. Specific test data for the substance or mixture is not available.                                                                                                                                                                                                                                                                            |
| <b>Eye contact</b>  | Causes serious eye irritation (based on components). May cause redness, itching, and pain. Specific test data for the substance or mixture is not available.                                                                                                                                                                                                                            |
| <b>Skin contact</b> | Harmful in contact with skin. May cause sensitization by skin contact (based on components). Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. May cause irritation. Prolonged contact may cause redness and irritation. May be absorbed through the skin in harmful amounts. Specific test data for the substance or mixture is not available. |
| <b>Ingestion</b>    | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Specific test data for the substance or mixture is not available.                                                                                                                                                                                                                                       |

### Symptoms related to the physical, chemical and toxicological characteristics

|                       |                                                                    |
|-----------------------|--------------------------------------------------------------------|
| <b>Symptoms</b>       | Itching. Rashes. Hives. May cause redness and tearing of the eyes. |
| <b>Acute toxicity</b> | Harmful by skin contact.                                           |

### Numerical measures of toxicity

The following ATE values have been calculated for the mixture:

|                 |                |
|-----------------|----------------|
| ATEmix (oral)   | 4,129.40 mg/kg |
| ATEmix (dermal) | 1,372.60 mg/kg |

### **Unknown acute toxicity**

24.9 % of the mixture consists of ingredient(s) of unknown acute dermal toxicity

#### Component Information

| Chemical name                     | Oral LD50            | Dermal LD50              | Inhalation LC50        |
|-----------------------------------|----------------------|--------------------------|------------------------|
| Ethylene glycol monopropyl ether  | = 3089 mg/kg ( Rat ) | = 870 mg/kg ( Rabbit )   | = 1530 ppm ( Rat ) 7 h |
| Diethylene glycol monobutyl ether | = 5660 mg/kg ( Rat ) | = 2700 mg/kg ( Rabbit )  | -                      |
| Propylene glycol monomethyl ether | = 5000 mg/kg ( Rat ) | = 13 g/kg ( Rabbit )     | > 7559 ppm ( Rat ) 6 h |
| Propylene glycol                  | = 20 g/kg ( Rat )    | = 20800 mg/kg ( Rabbit ) | -                      |

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

|                                          |                                                                                        |
|------------------------------------------|----------------------------------------------------------------------------------------|
| <b>Skin corrosion/irritation</b>         | No information available.                                                              |
| <b>Serious eye damage/eye irritation</b> | Causes serious eye irritation. Classification based on data available for ingredients. |
| <b>Respiratory or skin sensitization</b> | May cause an allergic skin reaction.                                                   |
| <b>Germ cell mutagenicity</b>            | No information available.                                                              |
| <b>Carcinogenicity</b>                   | Based on available data, the classification criteria are not met.                      |

The table below indicates whether each agency has listed any ingredient as a carcinogen.

| Chemical name                                    | ACGIH                                          | IARC                                                                | NTP | OSHA |

**Other adverse effects** No information available.

**13. Disposal considerations****Disposal methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations, Dispose of waste in accordance with environmental legislation.

**Contaminated packaging** Do not reuse empty containers.

**California waste information** This product contains one or more substances that are listed with the State of California as a hazardous waste.

**14. Transport information**

**DOT** Not regulated

**TDG** Not regulated

**IATA** Not regulated

**IMDG** Not regulated

**15. Regulatory information****Safety, health and environmental regulations/legislation specific for the substance or mixture****International Regulations**

**The Montreal Protocol on Substances that Deplete the Ozone Layer** Not applicable

**The Stockholm Convention on Persistent Organic Pollutants** Not applicable

**The Rotterdam Convention** Not applicable

**International Inventories**

Contact supplier for inventory compliance status

**US Federal Regulations****SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

| Chemical name                                | SARA 313 - Threshold Values % |
|----------------------------------------------|-------------------------------|
| Ethylene glycol monopropyl ether - 2807-30-9 | 1.0                           |
| Diethylene glycol monobutyl ether - 112-34-5 | 1.0                           |
| Acid Brown 282 - 70236-60-1                  | 1.0                           |

**SARA 311/312 Hazard Categories**

Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

**CWA (Clean Water Act)**

This product contains the following substances which are regulated pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

| Chemical name                | CWA - Reportable Quantities | CWA - Toxic Pollutants | CWA - Priority Pollutants | CWA - Hazardous Substances |
|------------------------------|-----------------------------|------------------------|---------------------------|----------------------------|
| Acid Brown 282<br>70236-60-1 | -                           | X                      | -                         | -                          |

**CAA (Clean Air Act)**

This product contains the following substances which are regulated pollutants to the Clean Air Act (CAA).

| Chemical name                                 | Hazardous air pollutants (HAPs) | Ozone-depleting substances (ODS) |
|-----------------------------------------------|---------------------------------|----------------------------------|
| Ethylene glycol monopropyl ether<br>2807-30-9 | Present                         | -                                |
| Diethylene glycol monobutyl ether<br>112-34-5 | Present                         | -                                |
| Acid Brown 282<br>70236-60-1                  | Present                         | -                                |

**CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

**US State Regulations****California Proposition 65**

This product does not contain any Proposition 65 chemicals.

**U.S. State Right-to-Know Regulations**
